

Headquarters::Headquarters

```
graph LR; A[Headquarters::Headquarters] --> B[Building::setPlacementRadiusSize]; A --> C[Headquarters::setupSprite];
```

The diagram illustrates two method calls originating from the `Headquarters::Headquarters` constructor. The constructor is represented by a grey rectangular box on the left. Two blue arrows point from its right side to two separate white rectangular boxes on the right. The top arrow points to the box containing `Building::setPlacementRadiusSize`, and the bottom arrow points to the box containing `Headquarters::setupSprite`.

Building::setPlacementRadiusSize

Headquarters::setupSprite
